

TBM Website Audit

Developer Implementation Brief & Tick-Box Checklist | tbmbuilding.com

8/10 Homepage appearance	4/10 Content credibility	5/10 Client conversion	5.5/10 Overall website
-----------------------------	-----------------------------	---------------------------	---------------------------

Executive assessment

Bottom line: The homepage gives TBM a premium first impression, but the website loses credibility once a visitor explores the inner pages. The current site looks visually expensive, yet it does not consistently feel complete, accurate or fully trustworthy.

Recommendation: Do not redesign the entire website. Keep the strong homepage foundation, remove legacy/template content, prioritise genuine TBM proof and rebuild the client journey around paid inspection and project execution.

What is already working

- ✓ The homepage clearly positions TBM around luxury renovation and construction in Abuja and Lagos.
- ✓ The visual direction feels premium and is stronger than the current inner pages.
- ✓ The before-and-after concept is highly relevant to TBM's core business.
- ✓ The service categories—renovation, kitchen, bathroom, construction, fit-out and maintenance—are commercially appropriate.
- ✓ WhatsApp access and Ziora can differentiate TBM when they support, rather than distract from, the main offer.

Critical credibility problems

Two different website identities

The homepage and Services page use the new TBM Building Services identity, while About, Projects and Contact still carry a different template style, navigation and “TBM Digital/TDM” language.

Projects page appears to contain demo content

Names such as “Brooklyn Loft”, “Scandinavian Kitchen” and “Cozy Farmhouse”, together with a questionable ₦90k figure, do not present TBM's genuine Abuja and Lagos project record.

Conflicting company claims

The homepage states 700+ projects while the About page claims more than 10,000 homes transformed. Only one truthful and verifiable figure should appear across the website.

Contact page weakens trust

“Sarah Jenkins”, unrelated strategy/content services, “TBM Digital”, free-consultation language and app-store buttons create doubt about who TBM is and what is currently available.

Bogat is incorrectly positioned

Bogat should be presented as TBM's premium bathroom vanity, sanitaryware and bathroom-ware brand—not as a vague general materials catalogue.

Some claims are too absolute

Phrases such as “On-Time Delivery—Always”, instant accurate estimates and real-time functions should only be used when TBM can consistently and demonstrably deliver them.

Correct homepage hierarchy

The website must sell TBM first. Ziora should strengthen TBM's service, not compete with it for the visitor's attention.

Recommended five-second message

“TBM renovates, builds and finishes premium residential and commercial properties in Abuja and Lagos.”

Recommended primary buttons

- Primary CTA: Book a Paid Site Inspection
- Secondary CTA: View Our Projects
- Support CTA: Chat on WhatsApp
- Lower-page technology CTA: Explore Ziora

Order	Homepage section	Purpose	Recommended action
1	Hero: TBM's core offer	Premium renovation, construction, interior fit-out and property transformation in Abuja and Lagos.	Primary: Book a Paid Site Inspection
2	Real project proof	Genuine before, during and after projects with location, scope and duration.	View Our Projects
3	Core services	Renovation, kitchens, bathrooms, fit-out, construction, maintenance and supervision.	Explore Services
4	Why TBM	Process, technical supervision, quality control, transparent scope and client communication.	Speak With Our Team
5	Client trust	Verified testimonials, site activity, company history, office/showroom information and clear contact details.	Chat on WhatsApp
6	Ziora—supporting section	Introduce Ziora lower on the page as TBM's design, visualisation and estimation advantage. Avoid allowing it to dominate the hero or first major sections.	Explore Ziora
7	Bogat	Present Bogat as TBM's premium bathroom vanity and bathroom-ware brand.	Explore Bogat
8	Final conversion section	Restate the paid inspection process and guide serious prospects to WhatsApp or the booking form.	Book an Inspection

Required positioning of Ziora

Ziora must appear lower on the homepage—after TBM's services, real projects, trust signals and process. It should be described as a TBM-assisted design, visualisation and estimation advantage until every advertised function is fully operational. The main brand promise remains: TBM designs, renovates, builds and transforms premium properties.

Developer implementation checklist

Tick each item only after it has been completed and checked on both desktop and mobile.

PRIORITY 1 — Remove credibility risks

- ☐ Replace every “TDM” or “TBM Digital” reference with “TBM Building Services Ltd”.
- ☐ Make the header, navigation and footer consistent across every page.
- ☐ Remove “Sarah Jenkins” and replace it with verified TBM contact information.
- ☐ Remove unrelated services such as strategy design, content strategy, product design and brand strategy.
- ☐ Remove or correct “Book a Free Consultation” to reflect TBM’s paid inspection/consultation process.
- ☐ Remove Apple App Store and Google Play buttons unless active, verified apps exist.
- ☐ Remove all demo/template projects, testimonials, names, figures and locations.
- ☐ Resolve the 700+ versus 10,000-project contradiction using one verified figure.
- ☐ Remove any claim or feature that is not currently operational or verifiable.

PRIORITY 2 — Rebuild the projects and proof

- ☐ Upload genuine TBM projects from Abuja and Lagos.
- ☐ Include real before, during and after photographs for each case study.
- ☐ Add project location, scope, duration and a concise transformation story.
- ☐ Feature the Asokoro kitchen remodelling story, including the wall opening and skylight/glass detail.
- ☐ Add genuine renovation, kitchen, bathroom, office fit-out and construction projects.
- ☐ Add verified client testimonials with permission.
- ☐ Add site-work photographs showing TBM personnel and project activity.
- ☐ Ensure no AI concept is presented as completed TBM construction work.

PRIORITY 3 — Correct the homepage conversion path

- ☐ Make TBM’s renovation and construction offer the first and strongest message.
- ☐ Use “Book a Paid Site Inspection” as the main homepage call to action.
- ☐ Use “View Our Projects” as the secondary call to action.
- ☐ Move Ziora below the services, project proof, process and trust sections.
- ☐ Ensure Ziora supports TBM rather than becoming the dominant homepage brand.
- ☐ Add a simple explanation of what clients receive from a paid inspection.
- ☐ Add a visible WhatsApp button using the correct business number.
- ☐ Repeat the booking call to action at the bottom of the homepage.

PRIORITY 4 — Correct brand and business information

- ☐ Rewrite the About page around TBM's genuine history since 2018.
- ☐ State TBM's construction, renovation, maintenance and interior/exterior capabilities clearly.
- ☐ Present Abuja and Lagos consistently across the website.
- ☐ Add the current Abuja office/showroom address.
- ☐ Add the approved telephone and WhatsApp numbers.
- ☐ Add info@tbmbuilding.com, www.tbmbuilding.com and @tbmbuildingservices.
- ☐ Position Bogat accurately as a premium bathroom vanity and bathroom-ware brand.
- ☐ Use "The Building Doctors" consistently where appropriate.

PRIORITY 5 — Ziora accuracy and placement

- ☐ Describe only features that currently work.
- ☐ Label unavailable functionality as "Coming Soon" or remove it temporarily.
- ☐ Avoid claims of instant accurate estimates unless the result is dependable and clearly qualified.
- ☐ Explain whether Ziora is self-service or assisted by the TBM team.
- ☐ Check every Ziora button, plan and form from start to completion.
- ☐ Keep Ziora's visual prominence lower than TBM's core service and project sections.

PRIORITY 6 — SEO, mobile and technical quality

- ☐ Create dedicated pages for Home Renovation Abuja and Home Renovation Lagos.
- ☐ Create dedicated pages for Kitchen Renovation Abuja/Lagos and Bathroom Renovation Abuja/Lagos.
- ☐ Write unique page titles and meta descriptions for all important pages.
- ☐ Add descriptive alt text to project images.
- ☐ Compress and properly size images for fast mobile loading.
- ☐ Check layout, text size, buttons and forms on common mobile screen sizes.
- ☐ Check all navigation links, WhatsApp links, forms and call-to-action buttons.
- ☐ Confirm form submissions reach the correct TBM email or customer-service channel.
- ☐ Add privacy, terms and cookie information where required.
- ☐ Configure analytics and conversion tracking for inspection bookings and WhatsApp clicks.

Final pre-launch acceptance checklist

- ☐ Every page looks like one consistent TBM website.
- ☐ Every project, statistic, testimonial and team identity is genuine and verified.
- ☐ The homepage clearly sells TBM before introducing Ziora.
- ☐ Ziora appears lower on the homepage and does not distract from core services.
- ☐ Paid inspection information is accurate and consistent.
- ☐ Bogat's description matches its current premium bathroom positioning.
- ☐ All buttons, forms, phone numbers and WhatsApp links work.
- ☐ All key pages have been tested on desktop, iPhone and Android.
- ☐ No placeholder text, demo content, broken links or unavailable app-store buttons remain.
- ☐ A potential high-value client can understand TBM, trust TBM and book an inspection without confusion.

Final target

Target outcome: A coherent, trustworthy and conversion-focused TBM website that presents genuine project proof, attracts high-value clients and positions Ziora as a supporting technology advantage—not as the main business.
